# Stock Market Strong in Tone

Volume of Dealings Restricted, and Obstruction to Business by Storm Curtails Attendance.

NEW YORK, Jan 26.-The effects of the great storm on stocks were percepti ble today only in the restricted volume o dealings, the attendance at the stock exchange being a good deal curtailed. Bu while dealings were on a small scale, the tone was clearly strong. The widespread obstruction of traffic and the interruption

obstruction of traffic and the interruption to earning power by the storm were evidently considered to have had their due effect in yesterday's decline. That decline, following two previous days, was regarded as having reached deckied limits and to have appreached the point of risk of overselling the market.

The professional element, therefore, reversed its attitude and bought stocks today. The bright weather following the storm is not to be ignored as an influence on the speculative sentiment in a market so strictly professional, and where so large a proportion of the dealings originate in the board room itself, any more than the severe weather of yesterday was to be lost sight of as a contributory influence to the gloomy tome which prompted the selling of stocks.

The tone of foreign markets gave a cheerful impulse to the opening course of the market. The proclamation issued at St. Petersburg was accepted as an indication that the Russian Government still has the situation well in hand and that the situation well in hand and that the situation of the public mind there was subduing. Rumora also continued to circuiate of a likelihood of overtures to ward mediation to end the Russo-Japanese war.

Prices of Americans were up in London

subduing. Rumors also continued to circulate of a likelihood of overtures to ward mediation to end the Russo-Japaness war.

Prices of Americans were up in London before the opening here, and buying for foreign necount followed when our market opened. Stocks which were most acutely depressed yesterday were most acutely depressed yesterday were most affected on the recovery today Amalgamated Copper, from which the dividends came off, was especially in demand, with considerable effect on sentiment.

The recently conspicuous firmness of Eric was still noticeable and strengthened the current supposition that this property is to figure in some important coming railroad deal. The cotton carriers were strong, apparently, on account of the corroborative evidence contained in the corroborative evidence sometime in the corroborative evidence with a bumper one. The most conspicuous movements of the day were in specialities, not all of which were explained. The strength of the Chicago Terminal issues was connected with the original plan. Atchison was inclined to lag, apparently from dissatisfaction at its bond lesse. The clearing out of weak speculative accounts by yesterday's sharp reaction normally benefited the technical situation of the market.

Rates for time money further bardened to some extent, which is the only effect perceptible from the continued large demand for our gold. Remittances to Cuba on account of the Cuban loan subscriptions, the last installment of which remains to be paid will soon be added to these requirements. Discounts were easier in London today and the price of gold there was reduced, while sterling at Paris rose a fraction.

Plates for exchange here were held effectly. With the gathering force of the upward movement stocks became fairly buoyant later in the day, most of the last gards to the subscriptions.

First Shipment of Season Arrived Yesterday-Eels Are a Luxury, Judging by Scarcity.

by comparison with the quantities of other varieties of fish, occupied a prominent place in the display of an uptown fish market yesterday afternoon. When asked what they were worth, the dealer implored that nothing be said about them at all, as he felt sure he would be besieged with re-quests for more. "And these are the only quests for more. "And these are the only ones I have been able to get in two years," he added. The two that came yesterday have been ordered for a long time by a man who considers the fish a delicacy and doubtless he said his friends congratulated themselves last evening as they devoured the only members of that particular branch of the finny tribe seen here in many months. Red snappers came along with the cels and were selling at 20 cents a pound, retail. Pompane was also among the offerings yesterday, and brought 25 cents a pound.

The largest shipments of California green stuff received for some days arrived yesterday. It was in good demand, and but little was left over when time for closing came. Fresh Utah eggs are among the promises for today, and it is said they will sell as low as 25 cents a dozen. Some of the dealers, however, are still asking 40 cents. Eastern eggs are selling at \$7 a case, wholesale.

It is expected that the refunding scheme on Southern Pacific will help Union Pacific materially. The action of the market all through the session and the strong close would indicate renewal of confidence by large operators. While commission-house trade has breadened out somewhat, there is still room for considerable improvement. Tone of market is strong, underlying conditions firm, and we lealleve that the negotiations for the anding of the Russian-Japanese war will bring materially nigher prices.

New York—Hutton Stock Letter—Today's advance should be followed temorrow by some realizing, especially on a strong opening tomorrow morning. New York—T. A. McIntyre & Co.'s Stock Letter—There has been no change of any importance in the general situation, but there is a disposition to regard the Russian situation as less likely to have any adverse influence on the speculative markets. Money continues easy and, although gold is going abroad, this will strengthen the position on the other side, and incidentally benefit our market. The big interests continue fairly friendly to the snarket and we look for ultimately higher prices, but continue to favor the purchase of stocks only on reactions.

New York-Marshail Spuder & Co.'s Stock Letter-It is now admitted and expected that gold expected that gold expect will continue, though at the time this influence on the money market will hardly be potent in advancing interest rates, and the stock market should receive no set-back from this source. Efforts to realize and attempts to cover short commitments, have distorted values in a way to disturb logical conclusions, it appears to us, however, that a better basis has been formed, and perhaps results will follow. The trading shows activity and strength throughout the list.

Chicago Grain.

CHICAGO, Jan. 28.—Wheat obened strong and higher. Receipts in the Northwest were restricted and the cables showed strength in futures abroad. May started with a gain of 143 at 14.14.11.11. Commission-houses with selling orders around 11.18 brought about a recession to B. 15.5.11.15. but their offerings were eagerly absorbed by purchasers for short account. Advices generally, both from the Northwest and Southwest, were to other differt that the cash demand was improving and holders were inclined to wait for higher prices. Advices of receipts of large shipments to Kansas City and a further report that the farmers have no wheat to ship, gave a new impetus to values. May touched \$1.155.31.35. and ruled strong during the remainder of the day. Indications that Southwestern miliers will soon have need to repletish depleted stocks was also given consideration by speculators. The closing figures, at \$1.165, were within a chare under the top price of the day. Primary receipts were \$25.000 bushels. Clearances of wheat and flour were equal to 19.000 bushels, against 211.000 bushels for four days a year ago. Minneapolis, Duluth and Chicago reported receipts of 23 cars.

Early trading it corn was active, but almost wholly of a professional character. May was unchanged to a shade higher on the opening transactions, at \$50.505 cars, closing early which started unchanged to a shade higher at 105.301, beauty and some of the commission-houses induced by light receipts of hegs gave a firm feeding to provisions early. May pook and lard were off 25c at \$12.000 13.004 and \$7.00. Rhs were unshanged at \$2.50.
